

News From MTI

Hello Mass Timber Colleagues!

We'd like to wish you all a safe and joyful holiday season!

News from the Institute

1. TimberCon

Mark your calendars! The mass timber institute will be co-chairing [TimberCon](#) with the Architect's Newspaper on March 18 & 19. Register today for a great lineup of speakers, panels, and tutorials.

Updates from our Partners

- Join The Michigan Forest Biomaterials Institute on January 12th for a [free webinar](#) on what mass timber construction is allowable within Michigan building codes.
- Congratulations to Master of Forest Conservation students Lindsay Dandridge and Feiran Xu who successfully completed their capstone projects on mass timber at the University of Toronto, looking at the feasibility of mass timber production in Saskatchewan and the Pikangikum First Nation, respectively.
- Congratulations to Yuluo Wei, Visual Studies Student for a great mass timber CNC project at the Daniels Faculty of Architecture Landscape and Design.

Yuluo's project looks at the intersection between art and science. What better forum for the topic than mass timber?

That's all for now -- thanks for reading!
